WORK EXPERIENCE

TechInnovator's Club – VSSD College

Full Stack Developer – Club Management Website (Live)

Dec 2025 – Ongoing

- Built and deployed a **live club management website** for TechInnovator's Club, VSSD College, using Next.js – currently live at club-jet.vercel.app.
- Implemented **member authentication, event management, and team directory** features, enabling seamless club operations for students and faculty.
- Designed a **responsive, student-facing interface** with sections for events, workshops, hackathons, FAQs, and member registration using Tailwind CSS.
- Deployed on **Vercel** with MongoDB backend, ensuring reliable uptime and fast load times for the college community.

Sciring

Full Stack Developer – E-Commerce Platform (Electronic Gadgets Store)

January 2025 – June 2025

- Built and delivered a full-stack e-commerce prototype for electronic gadgets with scalable architecture using Next.js.
- Engineered secure user authentication and authorization with **JWT-based** sessions and role-based access for vendor, delivery man, and customers.
- Developed **dynamic product listings**, search, and filter features; project was delivered to client but not taken forward.
- Designed **MongoDB** schemas with Mongoose to efficiently handle product variants, reviews, inventory, and customer data.
- Optimized for **SEO and performance**, achieving fast load times and improved crawlability.

Fundnex

Full Stack Web Developer – Online Wallet Platform

September 2024 – January 2025

- Architected and built a full-stack **online wallet gateway** supporting wallet-to-wallet, wallet-to-bank, and bank-to-wallet transfers; project was abandoned by client before launch.
- Designed and tested **robust APIs** for initiating, verifying, and managing transactions, ensuring compliance with industry standards.
- Optimally designed the database using **Mongoose** to store and retrieve transaction records, user data, and bank account details.

EDUCATION

Vikramajit Sanatan Dharma College

Bachelor's in Computer Applications (BCA) July 2025 – Ongoing

Achiever's Institute of Technology

MERN Stack Web Development April 2024 – September 2024

Java: Standard Edition June 2024 – November 2024

Jai Narayan Vidya Mandir I.C., Kanpur

Intermediate (12th) April 2023 – March 2024

PROJECTS

Production-Grade E-Commerce Platform

2025

- Engineered a production-grade e-commerce web application for electronic gadgets using **Next.js, Redux Toolkit, and MongoDB**.
- Integrated secure user authentication, order tracking, and **payment gateway** support with seamless deployment on Vercel.
- Designed with performance and scalability in mind, offering **dynamic product listings** and efficient state management.

Real-Time Chat Application

2024

- Built a real-time messaging platform with **WebSocket integration** for bi-directional communication.
- Optimized backend to handle multiple concurrent connections with minimal latency using **Node.js and Express**.
